## TMAC® Pole Top Rescue Kit

ELECTRICAL-INDUSTRIAL | TOOLS-TECHNOLOGIES  
**TMAC**®  
THEW & McCANN GROUP

The TMAC® Pole top rescue kit is designed to rescue a person injured while working on a pole / tower. This Pole top rescue kit meets electricity supply utility requirements for pole top rescue of line workers.

### KIT DETAILS

- Moulded from UV stabilised polyethylene plastic
- Stackable and interlocking design
- High strength rugged case – will not rust or dent
- Oil, Chemical and Water resistant
- 3.5kg

- Rope:**
- CE Certified
  - EN892:2012 Approved
- Snap hooks:**
- WLL 23kN 5000lbs
  - EN362:2004

- Class 0 Size 11
- Conforms with IEC 60903

- 2.5m long
- Adjustable strap
- H1 hooks and floating D ring
- Conforms with AS1891.1

- Pliers:**
- High leverage
  - Cuts nails and screw
  - Cuts steel wire
  - Long precision cutting blades
  - Serrated round-bar gripper
  - Weight 400g

- Conforms with AS1891. 1-2007
- Fitted with suspension trauma relief straps
- Rear fall arrest D ring
- Front fall arrest loops
- Padded waist band and side D rings
- Padded buttock seat with auxiliary 75mm pole strap O ring

- Knife:**
- Serrated blade
  - 115mm long
- Pouch:**
- PVC material
  - High visibility colour

*Note: There is no Australian Standard which specifically covers rescue kits. Refer to ENA guidelines "National guideline for management of tools and equipment used in the electricity supply industry" for further information.*

# THEW & McCANN A Legacy of Innovation

## WHERE IT ALL STARTED

Our story began back in 1949, when two young innovators living in Sydney saw an opportunity to provide a better solution. Lance Thew and Harold McCann used their army pay to start their own business. They supplied much-needed products to people servicing generating plants in country towns. Back then, they supplied everything from buckets and mops to electrical wire and work boots. Their initial mission was simple. They listened carefully to what these people needed, and they sourced the best products available.

## DRIVEN BY A DESIRE TO SOLVE PROBLEMS

The business grew and by 1969, we specialised in only electrical products. Thew and McCann soon found their passion for innovation was needed to cope with customer demand. As the electrical industry developed in Australia, so did the need for new products. If a quality, viable solution didn't exist, we were excited by the challenge of creating it.

## PROACTIVE INVENTORS WHO NEVER STOP LEARNING

During the 1960s, the business branched out into manufacturing and importing. We collaborated closely with customers, never missing an opportunity to consult, listen and learn. By this stage, we were designing and developing a range of exclusive electrical products that solved specific industry needs. We were also developing key connections with international trading companies so we could source supplementary products our customers required.

## NEW LEADERSHIP ADVANCES INNOVATION

When Lance Thew and Harold McCann retired in the 1970s and early 80s, this passion for innovation – for continual improvement – didn't diminish. Instead, it gained strength and momentum as the new leaders steered the company to meet the needs of emerging markets. Our unique Product Development Program helped us forge a market-leading position in the national electricity industry.

## WE LOOK FORWARD TO CREATING THE NEXT PERFECT SOLUTION

Thew & McCann has always been synonymous with finding a better way. Now known as TMAC, we never stop searching for better, safer and more reliable solutions. Our substantial investment in research and new technology, and our focus on industry collaboration, delivers groundbreaking products that are responsive, proven and refined.

**That's the TMAC Factor.**
